## THE BLAIRMORE PHARMACY

Gordon Steeves, Prop. Phone 110 Blairmore, Alberta.

A son was born to Mr. and Mrs. W. Whalley at Hosmer, on March the 26th. Mrs. Whalley was formerly Miss Una Schram.

Rev. F. W. Loche, of Nanton, will retire at the forthcoming session of the Alberta United Church conference, after forty-two years of service.

## Town of Blairmore

### TO WATER CONSUMERS

Please be advised that, owing to lack of water from the reservoir, river water is now being pumped into the distribution system. It is recommended that water for domestic use be boiled.

CHAIRMAN OF WATERWORKS.

A generally accepted theory, we are told, is that the world will end by gradual freezing. The news has awakened keen interest in plumbing circles.

The old-time practice of kissing the bride received a jolt at a recent wedding here when an awkward looking guest was asked if he had kissed the bride, and replied: "Not lately."

## Men's Suits

## SEVENTH ANNUAL C.N.P. MUSICAL FESTIVAL

The seventh annual C.N.P. Musical Festival will open at the local Columbus Club (former Blairmore opera house) on Easter Monday and will continue for at least three full days.

From latest reports, the entry list will be much larger than on any previous occasion, a total of around 154 being already recorded as against 166 for last year and 172 for 1929.

Mr. Thomas Jenk's, Welsh musical bachelor, organist of St. Stephen's church, Calgary, and Mr. Grigor Garbovitsky, of the Calgary Symphony orchestra, have been chosen as adjudicators for the festival, and following are committees: Programme—Miss M. Chardon, Secretary F. J. Smith and W. H. Moser; ticket sellers—W. H. Chappell; usher—Robert Gray; official accompanist, Mrs. A. L. Freebairn, Pincher Creek.

At a recent general meeting, it was decided that male voice choirs were not to exceed twenty-two voices, and that no competitor be allowed to practice on the concert grand piano before competing.

Three school orchestras will compete during the festival, and during the concluding programme these orchestras, consisting of around sixty school children, will be massed and play their selections under the leadership of Mr. W. H. Moser.

The festival programme will be of press the latter part of this week and a synopsis will appear in our next issue.

## DEATH OF COLE F. SEDGWICK

Word was received here on Friday morning of the death of a former pioneer of this district in the person of Cole F. Sedgwick, which occurred at Nelson, following a brief illness.

Mr. Sedgwick was very well known throughout this district, having on different occasions been in business in Blairmore and other points and at the same time conducting a ranch at the South Fork. While here he became a member of the Independent Order of Oddfellows, and maintained that membership after moving west. Since moving to Nelson he has been engaged in the wholesale and retail oil and gas business. In July, 1925, he was married to Miss Lois Purvis, who survives him. Also surviving are his mother, Mrs. C. M. Sedgwick; a brother, Cortez, living in Kalks, Montana, and a brother Lee, at Chinook, Alberta.

The remains were laid to rest at Nelson on Sunday afternoon.

## L'ELEZIENE DI R. PERESSINI A CONSIGLIERE COMUNALE E DIRETTORE DELLE FINANZE

The following is clipped from the March 14th issue of the La Voce del Popolo, San Francisco:

Blairmore, Alta. 14.—Giorni fa ebbe luogo la prima riunione del Consiglio Comunale, eletto per l'anno 1931, durante la quale il Commissario Kelly accolse il giuramento dei nuovi membri Oakes, McVey o Fumagalli. A cerimonia compiuta, il Sindaco Farmer annunciò la lista dei funzionari comunali, in cui figura il nome del signor Romano Peressini, eletto a consigliere delle finanze, insieme ai signori Morgan e Fumagalli. Il sig. Peressini appartiene inoltre ai comitati di polizia e di soccorso.  
Egli fu eletto pure a sostituire sindaco per l'ultimo trimestre dell'anno corrente. La carica di consigliere gli fu affidata con maggioranza di voti per il periodo di due anni.

Two gossip occupied the corner of a room a few days ago where a real party was in full swing. One remarked: "They say every cent her husband makes goes on her back," to which the other replied: "Well, he must be out of work, judging by what she has on now."

## THE BEARCATS ENTERTAINED

The spacious dining room of the Comopolitan hotel was the scene of a very pleasant event on Saturday night last, when the members of the Blairmore Bearcats, intermediate hockey team, were banquet guests of around fifty citizens.

The room was tastefully decorated for the occasion with black and orange, the club's colors.

The large tables were laden with only the best that could be provided, and needless to say, all enjoyed the splendid repast.

Following the banquet, Mr. Kelly, as chairman, introduced a number of speakers, including His Worship Mayor Farmer, all of whom took occasion to put in a word for the very excellent exhibitions staged by the boys during the season just passed, and voiced the hope that as a team they would remain intact till next season, when they should have a chance of advancing much further towards the championship. Many stories and anecdotes connected with the early days' hockey in this district were related, and quite a number were present who had played the game 'way back in the days of twenty years ago.

On behalf of the hockey club, the citizens who were instrumental in bringing about this very pleasant affair were thanked by Coach Scott, Captain Manson and others.

A pleasant evening came to a close with a vote of appreciation to Mr. J. F. Smith, proprietor of the hotel and his capable staff of waitresses, and the singing of "He's a Jolly Good Fellow" and "God Save The King."

## DEATH OF MRS. T. F. UPTON

There entered into rest in the early hours of Tuesday, March 17th, Mrs. Mary Edith Upton, widow of the late T. F. Upton, following several years of declining health.

Mrs. Upton was in her seventy-sixth year. She was born in Oxfordshire, England, and when a small infant sailed with her parents for Canada. The voyage took about three months. They settled in Guelph, Ont. After her marriage, she and Mr. Upton went to Clifford, Ont., where they resided for twenty-seven years and then thirty-one years ago came to Pincher Creek. They lived in the beautiful neighborhood of Yarrow, under the shadow of the Canadian Rockies, and their home was lovely with the fragrance of roses and other flowering plants, in addition to the large garden where an abundance of the finest of garden produce was grown. About seven years ago Mr. and Mrs. Upton moved to Pincher Creek. Mrs. Upton was predeceased by her husband about two years ago. During the war they suffered the loss of their youngest son, Charles, who made the supreme sacrifice.

There are left to mourn three daughters, Mrs. Phillip Lucas, Pincher Creek; Mrs. J. A. Munn, Wetaskiwin; Mrs. J. T. Walters, Lundbreck, and five sons, J. Edwin, Blairmore; Frank and Walter, of Yarrow; Earl, of Twin Butte, and Fred, of Stratton, Ont. The latter paid a visit to his mother about one month ago.

The funeral was held from the United church at 2.30 p.m., on Thursday, the Rev. N. W. Whitmore, B.A., conducting the service and performing the last sad rites. The floral tributes were beautiful and besides those of the family included offerings from Alexandra Rebekah Lodge No. 8, Ladies' Aid and W.M.S. of the United church, Mr. and Mrs. H. Clements and family, Mr. and Mrs. A. L. Freebairn and family, Mr. and Mrs. Geo. Topp and family, Mr. H. C. Lancaster and family, Mr. and Mrs. E. J. Jack and family, Mr. and Mrs. B. MacDonnell and family, Mr. and Mrs. Fred Campbell.

Deepest sympathy is extended to the sorrowing family.—Pincher Creek Echo.

Manitoba won 49.7 per cent. of all first prizes for butter at the ten largest fairs in Canada, in 1930, and 42 per cent. of all prizes offered at these fairs.

The French Chamber of Deputies unanimously voted an appropriation of \$29,560,000 to continue payments on pensions to war veterans who are more than 50 years old.

Former Ambassador Arsene Henry, father of C. Arsene Henry, newly appointed French minister to Canada, died March 12, at his home in Paris. He was 83 years of age.

A Japanese semi-rigid dirigible net what was claimed to be a world's endurance record for this type of craft, when it completed a stretch of 60 hours aloft without refueling.

Armistice Day will be observed on November 11, and no other date, if a measure to be introduced in the House of Commons by A. W. Neil (Ind. Comm.-Alberta) becomes law.

Savings deposits in Canada totalled \$1,428,736,686 in January, as against \$1,425,845,166 in December last. Current loans outside of Canada amounted to \$214,800,752, as compared with the December figure of \$213,565,402.

Repeal to the amendment to the Export Act passed by the last parliament, prohibiting the export of liquor to the United States, is proposed by Col. S. C. Robinson (Cons., Essex West).

Rt. Hon. Margaret Bondfield, Minister of Labor in the Labor Cabinet, celebrated her 58th birthday by doing 12 hours of work in her office. It was just an ordinary day for Miss Bondfield. She is known as one of the hardest working members of the cabinet.

## An Interesting Stamp

Newfoundland Commemorates First Trans-Atlantic Air Mail Flight

Newfoundland has issued a postage stamp commemorating the first trans-Atlantic air mail flight, which was accomplished in 1919 by the late Sir John Alcock and Sir Arthur Whitten Brown. The stamp is the fifty cent denomination of the Newfoundland air mail series. The dollar stamp of the series bears a map showing the route of all the great Trans-Atlantic flights. The series was printed in England and is beautifully designed and engraved. The tenth anniversary of the flight was commemorated by Newfoundland with a special postmark.

## Everybody's Querer

Call a woman a chick and she smiles; call her a hen and she howls. Call a young woman a witch and she is pleased; call an old woman a witch and she is indignant. Call a girl a kitten and she likes it; call a woman a cat and she hates you. Women are queer. Call a man a gay dog and you flatter him; call him a pup, a hound, or a cur, and he tries to alter the map of your face. He won't mind being called a bull or a bear, yet he resents being called a calf or cub. Men are queer.

## Ancient Halls Brought

To Antiques Exposition

Transported To New York City From

Uxbridge, England

The carved oak hall in which commissioners of King Charles I. met commissioners of Oliver Cromwell, back in 1645 at Uxbridge, England, has been transplanted, panel by panel, to the International Antiques Exposition at Grand Central Palace.

The treaty room of the old Treaty House at Uxbridge, its carved oak stained by time, is rivalled by another hall at the exhibition. It is from Buckhurst Castle, seat of the Earls of Warr. A pine-panelled room from Gray's Inn, London, England, is also reassembled.

There is furniture from many countries, ranging from medieval oak chests to 100-year-old Beidermeier just coming into vogue. Silver, jewels, and objects of art are included. Marlon Powys will show a collection of royal relics, several Russian aristocrats are offering articles through dealers and pottery and plate made at the Imperial factory founded by Catherine The Great, is displayed.

## SCHOOLGIRL, CHIC

All Trixie models are created and sketched in Paris and the patterns are made in New York. The most fascinating touches of lingerie, amusing and fantastic trims, collars and cuffs mark the new season's afternoon clothes. Naturally they attract young people's clothes as they do models for grown-ups.

A charming dress for a schoolgirl has been chosen for today, showing a new collar and cuff effect which is as attractive as it is becoming to the average young miss.

Here on a frock of fine mid blue broadcloth is a delightful collar and cuff set in soft pink crepe de chine. Buttons and blue edged buttonholes decorated the original, but real buttonholes are not absolutely necessary. Sturdier schemes in, for instance, fine navy chambray with blue and white spotted, or white collar and cuffs would also be exceedingly smart.

This pattern may be obtained in sizes 14 to 20 and 34 to 38. It is ready for immediate delivery. It is hand made.

Send 25 cents (in stamps or coin) to Fashion Bureau. Write carefully and plainly your name and full address, the number of the pattern and the size you want.

## New Giant Cunard Liner

Interior Decorations To Be Most

Elaborate Of Any Vessel Afloat

Continued rapid progress is being made on the new giant Cunard Liner of 73,000 tons which is at present under construction in the yards of John Brown & Company, at Clydebank, Scotland.

Details have reached the local offices of the Cunard Line with reference to a number of the plans for the interior decoration of the liner which will be part of the interior which up to the present is without a name.

Mr. Eric Reford, vice-president of the Robert Reford Company, and general manager of the Cunard Line in Canada, in discussing some of the features which will be part of the new Cunarder, mentioned the fact that she will have an exceedingly beautiful church and that it will be decorated in accordance with the best traditions of English ecclesiastical art.

"The liner itself will have eight decks above the water line," he said, "and between the aft and the centre funnels will be built the largest dining room ever to be placed in an ocean liner."

"The boat deck itself will be 70 feet above the water line, and the tops of the funnels, which are forty feet across, about one hundred and thirty feet above. The boat deck is to be about 600 feet long and the promenade deck 720 feet long."

"I understand that the interior decoration of the Cunarder has never been settled, but I am sure that it will be the most elaborate that has ever been known on an ocean liner."

"It is fully expected that the construction of the hull will be well advanced by the spring," said Mr. Reford in closing.

## Recipes For This Week

(By Betty Barclay)

## DATE MUFFINS

2 cups special cake flour, sifted.  
4 teaspoons baking powder.  
1/2 teaspoon salt.  
4 tablespoons sugar.  
1/2 cup milk.  
1 egg, well beaten.  
4 tablespoons butter or other shortening, melted.

1 cup dates, seeded and sliced.

Sift flour once, measure, add baking powder, salt, and sugar, and sift again. Combine milk and egg and add to flour, beating until smooth. Add shortening and dates. Bake in greased muffin pans in moderate oven (375 degrees Fahrenheit), 30 minutes. Makes 18 small muffins.

## SNOWFLAKE PUDDING

2 egg yolks, slightly beaten.  
Dash of salt.  
1/2 cup sugar.  
2 cups milk, scalded.  
1 envelope gelatine (1 tablespoon).  
1 can (1 1/2-2 cups) coconut, southern style.

1 teaspoon vanilla.  
2 egg whites, stiffly beaten.  
1 1/2 cups fruit, canned grated pineapple, berries or any fruit in season.

Combine egg yolk, salt, and sugar. Add a small amount of milk, stirring vigorously. Return to double boiler and cook, until slightly thickened, stirring constantly. Pour a small amount of hot mixture over gelatine, stir until dissolved, and add to remainder of mixture. Cool. Fold in 1/2 cup coconut, flavoring, and egg whites. Pour over fruit. Sprinkle with remaining coconut. Chill until firm. Serves 8.

## British Machines For U.S.

A British firm, the Wellman Smith Owen Engineering Corporation, Ltd., of Victoria Station House, S.W., has obtained a contract for the delivery of 1,000 tons of machinery to Pittsburgh, Pennsylvania, the heart of the American steel-producing country. It will mean the employment in England, of 600 men for six months. The contract is for machinery for the production of welded steel tube.

## Altitude and Power

As its seroplane increases its altitude, its motor loses much of its power, experiments conducted by the United States Bureau of Standards show. Tests conducted revealed that at an altitude of 25,000 feet a motor which developed 410 horsepower on the ground only developed 100 horsepower at that height.

## SUNDAY SCHOOL LESSON

MARCH 29

REVIEW: JESUS THE WORLD'S SAVIOUR—PREPARATION AND POPULARITY

Golden Text: "Jesus of Nazareth taught about the Kingdom of God, and healing all that were oppressed of the devil; for God was with Him."

Devootional Reading: Isaiah 55-56.

Questions Upon the Quarter's Lesson

For Young People and Adults.

1. How was the world prepared for the coming of Jesus?

2. What traits in the character and preaching of John the Baptist suggest the Old Testament rather than the New?

3. In what respects was John the Baptist a great man? What was his message?

4. What is the lesson for parents in the account of Jesus' first visit to Jerusalem?

5. Where the beginning of His ministry, what conflicting ideals did Jesus settle, and how?

6. What are some of the standards set by Jesus in His Sermon on the Mount?

7. Can one live by the Golden Rule?

8. How did Jesus express the evil of punctiliousness without principle?

9. What is meant by "the stewardship of life," and how did Jesus teach the lesson?

10. What questions has Jesus answered, and how do His answers show His wisdom?

For Intermediates and Seniors.

1. Where is Palestine?

2. Locate the place where Jesus was born, the place where He lived until His baptism, and the place which was His headquarters during His public ministry.

3. How did the Boy Jesus treat His parents?

4. What were Jesus' first recorded words, and what was the occasion for them?

5. What was the message of John the Baptist?

6. In what way was Jesus tempted in the wilderness?

7. What is a parable?

8. By what parable did Jesus teach the lesson of taking heed how one hears?

9. How did He teach the lesson that we must share with those in need?

A Review Of Important Words

Complete each of the following, and tell the occasion for its utterance.

Fourth Best Customer

Canada was Great Britain's fourth best customer in 1930, having advanced one place from the previous year. It was announced by the Department of Trade and Commerce after a report had been received from the British Board of Trade.

Canadian Geographical Society.

Dr. Charles Camsell, deputy minister of mines, was re-elected president of the Canadian Geographical Society at the recent annual meeting, the first and second vice-presidents being, respectively, C. G. Gowan and Dr. J. Macintosh Bell.

Geologists have found that Cape Cod, Massachusetts, is sandy to a depth of 300 feet in some places.

## No Cars For Voters

Ban Placed On Use Of Cars To Take Voters To Poll In Manitoba

Provincial Elections

Voters in Manitoba provincial elections will no longer journey to the polls in automobiles unless they are sick or infirm. The law amendments committee of the legislature decided to ban the use of cars to convey voters to polling stations.

Any voter, however, journeying to the polls in his own auto, can give a lift to a fellow voter en route to cast his ballot.

## New Baggage Device

A device by which baggage may be unloaded and taken on a 'plane in flight has been developed. Dropping a load into a chute, the plane's trail line is hooked onto the baggage which is automatically shot forward at the speed the 'plane is travelling.

# PAIN

after eating

What many call "indigestion" is very often nothing but excess acid in the stomach. The stomach nerves have been over-stimulated, and food sours. The corrective is an alkali, which neutralizes acids instantly. The best alkali known to medical science is Phillips' Milk of Magnesia. It has remained the standard anti-acid with physicians in the 50 years since its invention. One spoonful of this harmless, tasteless alkali will neutralize instantly many times as much acid, and the symptoms disappear at once. You will never use crude methods when once you learn the efficiency of this more pleasant way. A small bottle is sufficient to show its merit. Be sure to get genuine Phillips' Milk of Magnesia prescribed by physicians for more than 50 years in correcting excess acid. 50c a bottle; any druggist. Complete directions for its many uses are enclosed with every bottle. The Genuine Milk of Magnesia is always a liquid in a bottle. Look for the Phillips' name on bottle. (Made in Canada)

# Make Your Windows Pay

Invest in WINDOLITE Windows and you will be repaid a hundredfold in the health of your Poultry and Live Stock

# WINDOLITE

THE ORIGINAL GLASS SUBSTITUTE

MADE IN ENGLAND SINCE 1917 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and flexible, easy to cut and fit, will withstand extreme changes in temperature, keeps out cold and wet, but allows the full sunlight to enter, including the health-giving Ultra-Violet Rays, which do not penetrate ordinary glass.

CANADIAN breeders of poultry and livestock are finding Windolite a most satisfactory and profitable investment. Young chickens and turkeys are entirely free from leg weakness and disease and will thrive in confinement under Windolite. Windolite comes in rolls any length, but 36 inches wide only.

W. J. BARTLETT, PUBLISHER

Blairmore, Alta., Thur., Mar. 26, 1931

BARRING ALBERTA COAL

A new Coal Selling Bill which is to be introduced into British Columbia is being vigorously protested by the Edmonton Chamber of Commerce, and this body have asked for the co-operation of the Edison Board of Trade.

In a word, the proposed legislation is aimed at coals mined outside the province of British Columbia and is virtually a measure of protection for the B.C. coal mining industry.

The letter sent to the premier of British Columbia by the Edmonton chamber of commerce points out the unfair discrimination against the sister province of Alberta and suggests that such a measure, while not necessarily keeping out Alberta coal, will create suspicion in the minds of the Alberta people which will reflect against other B.C. products.

It seems a pity that our various provincial governments must, from time to time, descend to small town politics to satisfy some faction who do not seem to be able to mark the commodity. If the various governments of Canada want to interest themselves in, say, Canadian coal for Canadian people, they would find that they had plenty to do for the next few years in keeping out foreign coal which is being brought into this country in competition with our own. Selling Alberta coal in British Columbia cannot be considered a crime against the Canadian people simply because there are coal mines in British Columbia, no more than selling B.C. eggs in Alberta can be considered a crime against our hens. It simply means that there is a surplus and the easiest market is found for it. No one-sided arrangement can be made, as the province of Manitoba found out when they considered that Manitoba stone should be used in our provincial buildings, but at the same time they were using American coal and excluding Alberta coal. A little reminder from the Alberta government did not do any harm in this connection, and the same thing may become necessary with British Columbia. Our western neighbor has other things besides coal, things we need but can get elsewhere.

The protest from the Edmonton chamber of commerce was a timely one, and the Edison board of trade did well to add their voice to it.—Edison-Jasper Signal.

Lead a girl to the altar and that's where the leading begins.

## PAY UP AND PLAY

THIS NEW GAME

There is a new game invented, called "Tackle the Editor," says an exchange. You take an ordinary sheet of writing paper, up a which you write a few words suitable for the occasion. Then you fold it carefully, enclosing in the fold a cheque or money order sufficient to pay for your paper up to date, and hand or mail it to the editor. If possible, keep an eye on him, and if a smile adorns his face the trick works fine. Now is the time to play it.

THE WHEAT POOL'S REPLY

(From Edmonton Office)

In '27 I wrote dose verse

And quest de beeg fat hen,

But den things go from bad to worse,

Tink of signing Poule again.

In '28 I grow de flux,

Get good crop too, Bu Gosh!

Haul in few lead to pay de tax

Den price goes down "Korposh."

In '29 plant wheat once more,

Get lots hoashell, you bet,

I'm haul some in de "graded store,"

Take 'hadvance pay small debt.

Den every day I go to town,

And sheever lak seek pup,

For every time de price go down,

My blood "gresh" she goes up.

At noon one day, de phone she ring,

I hear beeg feller say,

"Six hunder booshell more you bring,

To town dis very day."

I haul den one, two, tres load,

Den snow she's pile up high,

And on dis phone once more I'm told

Dat grain, she's g'ne, good bye.

Dat make me rave lak mad, Sacre!

I go to town right away,

I tell dat Agent many things,

"You're sure sold out," he say.

I hauled de rest, bot road she's rough,

And take street price each day.

Dey all agree my wheat she's tough,

He's damp, beeg feller say.

Tak dockage too, I want tole you,

Two hunder pound each load,

And shrink him well, comprenez vous,

I'm ready for hexplode.

Wit Poule we get de even break,

Of small egg and de beeg,

L'avantage price de Poule he make,

She's all right, I'm not peeg.

Dat's story I gone tole my fren,

About de Grain Compasne,

I'm sorry now I quest fat hen,

She's egg look good for me.

A bishop had been speaking with some feeling about the use of cosmetics by girls. "The more experience I have of lipstick," he declared, "the more distasteful I find it."

Result of Faulty Vision

Billy (who caught his father kissing the maid): "Watcha doing, dad—kissing the maid?"

Father: "Bring me my glasses, son. I thought it was your mother."

## LOCAL TRAINS TO

### BE TAKEN OFF

Changes in the C.P.R. time table, becoming effective Monday next, will call for the removal of trains 535 and 536, operating three days a week each way between Macleod and Calgary, and Macleod and Crow's Nest, and trains 539 and 540, between Lethbridge and Macleod.

## BLAIRMORE PUBLIC LIBRARY

We thankfully acknowledge contributions of books from the following persons: W. J. Bartlett, a set of the "Masters of Canada," from the West Canadian Collieries, 15 volumes of Miscellaneous Volumes; from Dick Bennett, one copy of Chums. New books placed on the shelves this week are all bibliographical:

"Theodore Roosevelt," by Rasee Thayer; "Laura Secord," by Currie; "Pierre Curie," by Marie Curie; "Shackleton," by Harold Begbie; "Dr. Elsie Inglis," by Lady Balfour; "A Far Journey," by Autobiography of A. M. Ribbany; "Florence Nightingale," by Laura E. Richards, and four volumes of the "Englishmen of Action Series": "Livingstone," "Dunlop," "Sir Charles Napier," "Montrose." The library hours are: Tuesdays, Thursdays and Saturdays from 7 to 9 p.m.

## A COINCIDENCE

Here is a coincidence, try it. Write down the name JOFFRE. Below it put the name FRENCH. Divide the two names in the middle, three letters on either side of the line. Then you will find that the first three letters of Joffre and the first three letters of French spell Joffre. The last three letters of Joffre and the last three letters of French spell French. The first letter of French, the second letter of Joffre, and the fifth and sixth letters of French spell Foch. Peculiar, isn't it?

## THE FARMER'S LAMENT

(By Grain Trade Post Laureat)

La Poule she awful beeg fat hen,

She promise great beeg egg,

She say, you feed me all your wheat,

Five year, and barley too,

Den pretty soon I lay an egg,

Be beeg surprise to you.

So dat dam Poule, she got my wheat.

For three year, barley too,

Then hire some rooster up to say,

A cock-a-doodle-doo.

I say, by gar, you great beeg Poule,

I most fed up with you.

You promise me some beeg fat egg,

Not cock-a-doodle-doo.

I then refuse to feed her wheat,

And all my barley too,

Unless she lay me beeg fat egg,

Not cock-a-doodle-doo.

She had more wheat than she could eat

In fifty year or more,

But dat-dere Poule, when I did speak,

Made out she mighty sore.

She went up to the court and got

A beeg injunction tru

To make me give her all my wheat,

And all my barley too.

And still she never lay no egg,

Just flies the country tru,

With plenty beeg fat rooster saying

Cock-a-doodle-doo.

And when I go into my house,

Still wondering what to do,

I turn on CKY and hear

Old cock-a-doodle-doo.

The success of the Alberta police in the Midwinter murder case will revive the feeling of security in our law-enforcing organizations. There were a group of happenings last fall that seemed to baffle the police for the time. One was led to wonder if the reign of terrorism was migrating from Chicago to Alberta. But the tenacity with which the police followed up this case indicates that the standing in the eyes of the public. Perhaps Chicago could use a few members of Alberta's efficient police department.

## BLAIRMORE UNITED CHURCH

Rev. J. W. Smith, B.D., Pastor

Serve the church that the church may serve you.

Services Sunday, March 29th, the pastor in charge.

11 a.m.—SENIOR SCHOOL.

2 p.m.—JUNIOR SCHOOL.

7:30 p.m.—PUBLIC WORSHIP.

Subject: "Finding that which is lost."

ST. LUKE'S, BLAIRMORE

A. S. Partington, Vicar

Next Sunday, Palm Sunday, the services will be as follows:

Sunday school in the hall at 10 a.m.

Holy Communion and sermon at 11 a.m.

Next week, being Holy Week, the services and meetings, will be:

Thursday: 10:30 a.m. Holy Communion.

4:15 p.m., Girl's Guild at Mrs. Hill's.

7 p.m., Choir practice.

8 p.m., evensong and address.

Good Friday: 4:15, children's Lenten service.

8 p.m., evensong and "Story of the Cross."

There will be a "Three Hour Meditation" in St. Alban's, Coleman, on Good Friday, commencing at 12 o'clock noon. I would appreciate it very much if as many as possible will avail themselves of this opportunity of "coming apart with God" not alone in Blairmore, but also at the "Three Hour Meditation."

Bertram A. Jones, who with Radko was last week sentenced to hang on June the 10th for the murder of Ernest Midwinter, a Calgary taxi-driver, is known to those from the Crows' Nest Pass who served with the 49th overseas, and is listed in a memorandum kept by R. W. H. Pinkney, of Blairmore. The man Allen was also formerly in the Crows' Nest Pass and resided for a time at Coleman. Jones' father was mine inspector at Lethbridge, preceding Moses Johnson, now at Blairmore.

## GROSS CANADA MOTOR

TRIP PROVES FAILURE

Returning from an unsuccessful attempt to cross Canada by motor car, Healy F. Needham has reached Halifax. The venture came to grief when the car which he was driving overturned in the Lake Nipigon region in Ontario just forty miles from the point where a forest trail would have led him to the prairie country. He is still convalescing from broken ribs and an attack of pleurisy contracted at the time of the accident. Mr. Needham intends to remain in Nova Scotia. His wife and family are at present residing in Montreal.

The Fernie council has decided to have provincial police police that city.

AMERICAN car owners are expected to spend approximately \$350,000,000 while touring in Canada this year. This is the estimate of the touring bureau of the Detroit automobile Club, based on records and statistics of expenditures by American motorists in various countries during the past few years. In all, the American motorist will pay not more than \$4,000,000,000 while he is driving in his own country, and Canada, Mexico and Europe in 1931, according to the statistical experts. Europe's share of this will be \$100,000,000, and Mexico's \$50,000,000.

## Turn Skelches Nail By Cy Fifty Cent Wheat

THE market value of anything is usually understood to be the amount of money that may be secured for it when offered for sale on the open market. For example, the market value of wheat this winter hovered around the fifty cent mark, lower than it has been for many years. But the market value and the social value are two entirely different things.

You will be able to attend the World's Grain Show at Regina in 1952 probably for fifty cents. That's the market value, or what some people may say is "all the traffic will bear." The value, not only of those engaged in the farming industry, but to society generally, of a Conference of the best agriculturalists there are in the great wide world will no doubt be infinitely greater than the market value made up of the aggregate half dollars paid at the gate.

When one compares the market value of four or five thousand bushels of wheat, which represents the labour of a whole farm family for one whole year, with the two weeks' market value placed upon the antics of Maurice Chevalier, the French film actor, in a London revue, it is not to laugh but to pull the cheek creases farther down from the corners of the mouth.

Harry Lauder is reported to have said on one occasion, "I get \$2,000 a week because I'm worth it." Harry, old boy, maybe you were right, but a lot of people think you got it because somebody was willing to pay it, and this doesn't mean that there is any fault to be found with you for taking it or double the amount if somebody is willing to pay.

It is just a question of a singer of comic songs, though he may be able to cause the tears to flow from these menaces, or the rib walls to give way under the stress of boisterous laughter, it is just a question of such a performance is of greater social value than that of a prime minister, or a great judge, or the head of an enormous business upon whose ability and judgment depends the well being of thousands of other people.

Probably it is not stretching it a bit to say that wheat at fifty cents a bushel constitutes the cheapest staple food on the market. Oh, yes, there is the law of supply and demand, but there are a lot of other things as well. The only point we desire to emphasize is that there is a difference between the market and the social value and to add that there is one chance, at least, in a thousand that society might be better off if it became more serious about this difference.

### NO NATURAL ANIMAL LIFE IN BERMUDA

Passengers arriving on St. Patrick's Day, at Hamilton, capital of Bermuda, were greeted with the fact that Ireland is not the only island in the world which is snakeless. The British colony of Bermuda harbors not a single snake. More than that, there are no reptiles of any kind on the island. Even further, there is no natural animal life of any kind save human beings and the domestic animals which they have raised in their tropical paradise. Curiously, too, there is no natural bird life. Not even seagulls, it is claimed, are ever sighted around this group of coral islands.

W. Scales, civil engineer of Calgary, has been appointed city engineer at Fernie.

### Here and There

(342)

An Indian grave, discovered by accident by Canadian Pacific employees at work near Brooks, Alberta, last May, is considered by experts to be between 300 and 400 years old. It is thought the grave was originally above ground but the passage of centuries had buried the grave below the soil. An irrigation ditch was being constructed when the grave was discovered.

Tri-motored airplanes are being launched in one of the most spectacular fights in the history of aviation. War has been declared by the Canadian Government on the spruce bud worm and the airplane is to be the principal arm of the service. Planes each carry 1,600 pounds of powder, and will dust it while flying low, over the tree tops.

Scheduled to play at least 25 games in less than three months in practically every capital of Europe the Manitoba University graduates hockey team sailed from Saint John aboard Canadian Pacific liner Melita for Liverpool, January 2. They will return to Canada from Liverpool at the end of March.

The "Corn Belt" of North America has in the last few years slowly pushed its way north and today many parts of the prairie provinces of Canada are producing corn of different varieties and of high quality. At the fifth corn show under the auspices of the Saskatchewan Corn Growers Association, one of the finest exhibits of corn in the history of western Canada was on display.

A recent official report states that over 55,000 lbs of the eight-armed octopus were caught in 1928 and over 28,000 lbs in 1929. The fish is eaten chiefly by Orientals in British Columbia and brings between five and ten cents a pound on the market. The catch is the incidental product of other fishing operations.

Not long ago there was a fire in a Jewish merchant's establishment. The assessor came round to have a look at the scene: "How did the fire start?" was the first question. "Well, replied the Jew, 'it may have been electric light or it may have been the incandescent light.' " "Yes," said the assessor, "and it may have been the Jew."

### STUDY SUNSPOTS AND THEIR EFFECT ON LIFE

While the size and composition of the heavenly bodies and their distances from the earth and from one another are of immense moment to the astronomer, nevertheless the final object of all this study is the application of the acquired knowledge for the good of mankind. Many are the benefits resulting from astronomical research. Means have been discovered for protecting our ships at sea, for assisting in the survey of lands, the finding of minerals, and many other things which conduce to man's safety and comfort.

A most important astronomical study is that of sunspots and in this study the Dominion Observatory, Department of the Interior, Ottawa, has for a number of years taken a prominent place.

It is known that the sun is not a constant body; it has brighter and darker areas (sunspots) which are changing in number and extent in an irregular manner with a prominent period of average length a little more than eleven years. Accompanying this variation there are apparently rather small changes in the solar energy received at the earth, but a strikingly large change in ultra-violet light. This light ionizes the upper atmosphere of the earth, producing electric currents which affect terrestrial magnetism, the northern lights, and likely produce cloud-nuclei in the lower atmosphere. Ultra-violet light also exerts an important direct influence on living things.

Many investigations have been carried on, the world over, in the search for consequences of the sunspot cyclical changes. Effects have been indicated in rainfall, temperature, loudness and storminess, and in various forms of life and economic conditions. Apart from the scientific interest, it is important to ascertain the extent of such effects throughout Canada.

Records for long periods are needed in this search. There are faithfully kept meteorological records in many places in Canada, some extending over fairly long periods. These records when analyzed, show some striking effects of the sunspot influence. For example, Edmonton precipitation shows a 56 per cent range in the eleven-year period, with a maximum one year before the minimum sunspots; the temperature for the same time (1914-1925) shows a variation of 2.8 degrees Fahrenheit in the cycle, with maximum at the minimum of sunspots. The temperatures at Toronto and Montreal for the year 1878-1925 show a similar effect. Manifestations have been examined, and the evidence points to the widespread influence of sunspots.

Records of living things are scarce however, old trees exhibiting variation in the widths of the annual ring of growth afford record of living conditions, in many places for centuries. With the co-operation of various branches of the Dominion government service and of others, tree sections have been secured by the observatory from many parts of Canada. The eleven-year sunspot cycle seen to be revealed in the trees already measured, but with variations in different regions. A section of a butter flat which grew at the Dominion Experimental Farm, Ottawa, exhibits a 58 per cent range in the growth ring for the average sunspot cycle. Spruces, including two pre-glacier specimens of Sitka spruce, usually show nearly a 20 per cent range during the eleven-year cycle.

Weather fluctuations are serious factors in living conditions, and it is not surprising that they are reflected in such records as are available of fur-bearing animals, grouse, grasshoppers, etc. In general, rabbits are most numerous about the sunspot minimum and scarce at maximum and with this variation the animal which prey on the rabbit must also vary, in addition to direct change resulting from the climatic pulsations. A record kept in Manitoba, when analyzed in relation to the eleven-year sunspot cycle shows striking correlation.

ion. Individually and combined, the records exhibit the sunspot cycle, grasshoppers at a maximum at the minimum of spots, grouse at a maximum about a year after.

Astronomers feel that fuller knowledge of the sunspot cycle will eventually assist in permitting long-range weather forecasts of a general nature, and will thus provide valuable information in relation to forest protection, wild life conservation, and other matters of social and economic importance.

### VILL BROADCAST ARRIVAL OF GOVERNOR-GENERAL

The arrival of the new Governor General, the Earl of Bessborough, and his welcome to the Dominion will be broadcast direct from the pier at Halifax to all corners of Canada, according to arrangements which have been made by E. A. Weir, director of radio for the Canadian National System. The Vice-Regal party will arrive in port at 10 a.m., April 4th, and will be met by the prime minister and secretary of state. They will come ashore at 11 o'clock and there will be a reception of about half an hour's duration on the pier, when the invocation of the Guard of Honor and other formalities will be broadcast. The wearing-in ceremony will be broadcast from the legislative building at noon. The whole historic event will be carried into all the provinces by a network of Canadian National Telephones with Canadian National and associated stations linked up from sea to sea.

The Alberta conference of the United church will meet at Calgary in May the 28th.

### Here and There

(531)

Instigated in 1926 in answer to the demands of rapidly increasing travel between Montreal and Boston, the "Red Wing," fast running Canadian Pacific night express between the two cities will have forty minutes cut from its schedule on and after January 11, leaving Montreal, forty minutes later than before but arriving at Boston at the same time as on the former schedule. The train will leave the Windsor station Montreal at 9:15 instead of 9:15 as heretofore. The "Red Wing" is an all-steel train with all equipment of the latest type.

Appointment of W. B. Patterson to be deputy general auditor, Canadian Pacific Railway, is announced by E. E. Lloyd, Comptroller of the railway. He is succeeded in his late position of auditor of disbursements by Charles B. Gordon. Mr. Patterson is one of the youngest men holding important offices in the Canadian Pacific Railway, having been appointed auditor of disbursements four years ago at the age of 36. Mr. Gordon was comptroller of the Kettle Valley Railway in British Columbia, prior to his new appointment.

A motor cycle and side car carrying two men and towing a man on skis, broke the silence of Lake Louise December 23 when at nearly 6,000 feet altitude it roared around an improvised track at a speed above 50 miles an hour. It was the first time in history that a motor cycle has been on Lake Louise; the first motor cycle ski-joring that has taken place there and the first time a motor cycle has travelled under its own power from the Prairies to Lake Louise in the depth of winter.

On the stroke of midnight of December 31st, last, one of the most remarkable railroad careers in the Maritime Provinces ended with the retirement of Charles H. S. Henderson, dean of Canadian Pacific Railway conductors. Mr. Henderson became a train conductor in 1878, at the age of 17 on the New Brunswick railway between St. Stephen and Edmundston. He completed 54 years of service with this railway and the C.P.R. December 31. He has been conductor on the trains of three successive presidents of the Canadian Pacific.

## What makes a town?

A prosperous rural population which demands a community centre where may be established business, educational, religious and entertainment facilities. Where these flourish and are active it is safe to surmise that the people of that section realize and appreciate the value to them of such a centre.

## What maintains it?

The towns are largely maintained by the surrounding districts. But the organization, the direction, and to a great measure the un-keep, of the institutions in such towns are in the hands of the business interests, together with those directly and indirectly connected therewith. Without the active business and professional men to supervise and govern these public institutions and undertakings, no town could thrive.

## Who is mainly affected?

Every citizen either in or about a town should be concerned in seeing to it that they do their part in carrying on any good cause which may be promoted, either by financial or active support. Only in this way will any town prosper and develop as it should.

## Publicity is required

In promotion work your local paper takes the leading part. It is ever the champion of worthy causes and philanthropic and patriotic undertakings. But to function properly, and fully carry out its natural prerogatives, it must in turn have the financial support of the community it serves. When needing advertising or printed matter always first think of

# PROMOTED

A. H. Davidson

Two appointments of considerable importance to the Canadian Hotel and Restaurant Association have been made in connection with the annual convention to be held at the Hotel Vancouver, Vancouver, B. C., on May 10 and 11.

The first of these appointments is that of Mr. A. H. Davidson, general manager of the Hotel Vancouver, as president of the association for the year 1931. Mr. Davidson has been a member of the association for many years and has been instrumental in many of its successful ventures.

The second appointment is that of Mr. J. E. Macdonald, general manager of the Hotel Vancouver, as vice-president of the association for the year 1931. Mr. Macdonald has also been a member of the association for many years and has been instrumental in many of its successful ventures.

J. E. Macdonald

# Here and There

The Canadian Hotel and Restaurant Association held its annual convention at the Hotel Vancouver, Vancouver, B. C., on May 10 and 11. The convention was attended by representatives of hotels and restaurants from all over Canada and was a great success.

The convention was opened by Mr. A. H. Davidson, president of the association, who gave a short address to the delegates. He said that the association was proud to have the convention held at the Hotel Vancouver and that he hoped it would be a most successful one.

The convention continued for two days with many sessions and a large number of delegates. The convention closed on May 11 with a banquet and a dance.

# COWLEY HAPPENINGS

Fishermen are looking over the lake for a good catch of trout. The lake is now open and the weather is getting good. The fishermen are out in force and are catching a good many trout.

## ENO'S FRUIT SALT

### The Safest, Surest Way To Health

The daily dash of ENO in a glass of water, every morning is the safest, surest way to inner cleanliness. And to be inwardly clean is to be healthy.

ENO'S "Fruit Salt" is a delicious health beverage that tones and sweetens the entire system. For constipation, acid stomach, fatigue and biliousness it is without equal.

But remember, only ENO can give ENO results.

### A 1931 Seed Time Problem

Seeding time throughout Western Canada is at hand, and, as the farmer overhauls his ploughs, harrows, and seeders in preparation for the Spring work, he naturally is looking forward and planning just what he ought to do in the light, not only of his own individual circumstances, but of prevailing world conditions and prospects.

The prairie farmer is an optimist, as a rule. Indeed, to succeed, he can hardly be anything else. Unquestionably, however, there is less optimism prevalent at the season of 1931 opens than in usually the case throughout this western country, and many farmers are in a somewhat of a quandary in reaching a decision just what is best for them to do this year.

Most of them have been growers of wheat. It has been their major article of production. Upon it they have depended for success. But for the past year and a half wheat has been a drug on the world's markets. The selling price has fallen well below the cost of production. There is a large surplus stock on hand in various countries. What, then, is the prospect for disposing of a new crop of wheat at profitable prices in 1931? Yet the vast majority of prairie farmers cannot turn from wheat growing to something else in one short season, even if it was advisable to do so.

Under these circumstances should the farmer proceed to seed the average number of acres he has been seeding in years past? If he does and all the great wheat growing countries, as well as Canada, harvest an average normal crop, will the price obtainable for the wheat yield him a profit, or will it again fail to cover the costs of production and leave him in a worse position than if he had grown no wheat?

Inasmuch as the farmer cannot rest from growing something,—his livelihood depends on his production,—and as the prevailing prices for coarse grains also are less than production costs, the farmer is confronted with a real problem, and one he must decide for himself. Another crop failure, or partial failure, would be a disaster. Equally, a large crop throughout the world would mean loss to the producer. It is a gamble either way. If the Western Canada wheat grower could be assured of a good crop, while below average crops were the rule in other great wheat producing countries, his course would be clear. But as to this no man can foretell.

Possibly many farmers will consider it wise to merely seed sufficient acreage to provide him with a livelihood if all goes well, and devote his time to the eradication of weeds and the more thorough cultivation of his land in preparation for future operations, coupled with the planting and expert care of a garden sufficient to supply the needs of his own family during the summer and next winter.

A goodly number of farmers will have to look to the Government to supply them with seed; many others will not be able this year to buy registered seed, but whatever acreage is sown, be it large or small, should be seeded with good, clean seed, the best it is possible to obtain under the circumstances.

Generally speaking, too, farmers will have to keep down all overhead expenses. Last year's plough, harrow and seed drill will have to do service another year. Therefore, careful overhauling of all present equipment will undoubtedly be one of the outstanding activities on farms at this time. The farmer and his family may have to work even harder than usual, and possibly get along with one hired man where formerly two were employed, even though this may operate to continue or temporarily intensify the existing unemployment.

In a word, everybody must face and adapt themselves to the hard, unpleasant facts of the existing situation. Present problems cannot be solved and difficulties removed solely by Governmental action, the extension of credits, or any other external agency or action. These may help, but at best, they are only temporary palliatives. Each individual must, in the final analysis, face his own problem, decide upon his own line of operations this Spring, work out the basic needs essential to his own salvation.

This article is not a pronouncement at farmers; it is not an attempt to advise farmers, for if there is one individual for whom the writer has a contempt it is the arm-chair critic, the arm-chair farmer. The existing situation, as the writer sees it, is that each and every man must exercise his own best judgement in the light of his own particular circumstances, and proceed with all the ability and energy which he is capable to work out the solution of his own problems, and thereby make his contribution towards finding a solution for the problems of all others and the country as a whole.

#### White Hunters Protest

The Indians' right to trap beaver is contested by the white hunters of Fort Smith in the northern part of Alberta. At a protest meeting, held recently, a number of the white trappers declared it was unfair to deny the white man the privilege of trapping the beaver, while Indians and half-breeds were allowed 15 beaver each season.

The Hawaiian Islands are the peaks of mountains rising from a plateau thousands of feet below the ocean level.

Gossip is the mother-in-law of falsehood.

### Suffered From Heart Trouble

#### Became Weak and Run Down

Mrs. Wm. D. Dittie, Glenside, Ont., writes:—"For a long period I suffered from heart trouble, and became very weak and run down. I tried many remedies, but they did me no good. One day I met a friend and told her of my trouble. She said she had had heart trouble for two years too, but after using Milburn's Heart and Nerve Pills for a short time she had been relieved of her trouble, so I got two boxes and after taking them I was again feeling fine, and always recommend H. & N. Pills to anyone complaining of heart trouble."

**Price 50c a box**

Sold at all drug and general stores, or mailed direct on receipt of price by The H. & N. Co., Ltd., Toronto, Ont.

### The Value Of Carbon

No Form Of Life Can Exist Without This Atom

The most wonderful substance in the world is carbon. Soot, lamp black, and pencil leads are all forms of carbon—and so is the diamond. The carbon atom possesses one remarkable quality. It enables other atoms to combine into huge groups or families from which all kinds of substances are made. By themselves, the atoms oxygen, hydrogen, and nitrogen can produce nothing very startling, but add carbon and their combinations become amazing, giving rise to such substances as petrol, oil, medicines, bread, and meat. If it were not for carbon, life could never have existed upon this or any other world. All kinds of living things—fish, fowl, fruit, and fowl—owe their existence to the carbon atom. No one knows why this should be so, for the carbon atom differs from others only in having one electron more or less than they. But it is quite certain that it is the foundation-stone of all life.

### Just Right For Upset Stomach

For after-eating distress, gas, sourness and bloating, the quick and positive neutralizing action of Bismac Magnesia has proved to be just what is needed. Bismac is a natural mineral, and follows the very first dose—and a few cents worth obtainable from any good druggist, lasts for a long time.

#### Canada's Trade Balances

Six European Countries Bought More Than They Sold In 1930

With only six European countries did Canada enjoy a favorable trade balance, in 1930, according to a return issued by the Dominion Bureau of Statistics. These were Denmark, Norway, Greece, Netherlands, Italy and Belgium.

Japan and China were the Asiatic nations which purchased more from this country than they sold to Canada.

Argentina, Brazil and Cuba were countries of South America, and the Caribbean, which all gave Canada a favorable balance of trade.

The greatest spread was in trade with Greece. The Hellenic Republic bought goods from this Dominion valued at \$6,651,000, and sold to Canada commodities with a value of \$234,000.

Nothing As Good For Asthma As Asthma remedies come and go but every year the sales of the original Dr. J. D. Kellogg's Asthma Remedy grow greater and greater. No further evidence could be asked of its remarkable merit. It relieves. It is always of the same unvarying quality which the sufferer from asthma learns to know. Do not suffer another attack, but get this splendid remedy today.

#### Results Were Startling

Investigation By 'Phone Company Shows Decline In Conversational English

An investigation conducted in New York by the American Telephone and Telegraph Company's engineers, who listened in to telephone circuits over which business calls predominated, gave startling results regarding the decline in conversational English. Of 70,300 words recorded, 20 simple words—principally the personal pronouns, prepositions, conjunctions, and a few verbs—made up nearly half. More astonishing still is the fact that 125 words, including the 30 already mentioned, were used more than 20 per cent. Grammarians will be horrified to learn that "shall" was heard only six times; while "yeah," "uh-huh" and "er" were plentiful; and the grunts and monosyllabic replies recorded ran into the thousands.

Quick action saves trouble, worry. Keep Douglas' Egyptian Liniment always handy. Stops itching instantly. Cures wounds. Halts come back. No scar remains.

#### Making Business Hum

A London, England, department store gave out \$2,500,000 worth of orders to wholesale houses in one day. It then published big ads in the papers inviting the public to come and buy the lot up in one week. That's the way to make trade hum.

#### Canada's Highways

The total higher mileage of all classes of road open for traffic in the Dominion of Canada at the end of 1929 (latest official figures), amounted to 390,000, which was an increase of 8,083 miles during the year.

A fountain pen for writing in dark places is equipped with a small flashlight.

#### World Waiting For Disarmament

General Agreement Expected To Be Reached At Conference Next Year

The world can disarm its forces of land and air by following the methods embodied in the Italo-French naval accord—actual reduction of armaments as well as limitation of them. D'Ino Grandi, minister of foreign affairs, told the Italian Chamber of Deputies, in reporting to it the details of the naval agreement.

That such disarmament of aerial and military units may be agreed upon at the general disarmament conference next year has been made more probable, the foreign minister said, through the influence of the present agreement.

Grandi called the arms conference which will meet in February, 1932, under League of Nations auspices, the most important since the war, and said tremendous preparations for it were under way. Political relations are being improved in anticipation of the coming party, he said, governments are exchanging viewpoints, and public opinion is being given voice in the nation which will have a part.

Grandi spoke before a distinguished gathering which included Premier Mussolini.

He said the Italian principles in the problem of disarmament were two: Reduction of armaments to the lowest possible limit, but parity with the most heavily armed power of continental Europe. No naval agreement which results in a five-power treaty is a victory for anyone, he said, but it is "a victory of common sense."

#### Storm Makes Water Salt

Nova Scotia Lake Is Now Part Of Atlantic Ocean

Once upon a time, in fact as late as a few weeks ago, there was a deep lake of fresh water on Seber Island, off the shores of Nova Scotia. The lake is still there, but a storm came and now the water is quite salt. Adding new territory to the Atlantic Ocean, a hungry sea tore through a wide wall of earth and trees ten feet high, and the mile-long lake that provided generations of fishermen with ice and a natural rink now rises and falls with the tides. At low tide fairly large vessels can enter through the wave-beaten passageway and anchor in the lake.

One island resident, looking back 85 years, says that never before within that period has salt water entered the lake.

#### Escaped From Russian Prison

English Engineer Under Care Of British Embassy At Warsaw

M. Thompson, an English engineer, has been taken care of by the British Embassy at Warsaw, Poland, following his escape from Russia. The man was found hanging under a car when the Moscow-Warsaw express reached Warsaw. He said that he had been working in a Russian factory and had been arrested by the O.G.P.U., the Russian secret police, and taken to a prison in Tomsk. He escaped and reached Warsaw by walking and by beating his way under trains.

#### German Invents New Mirror

A non-breakable mirror of wood has been invented by a German scientist. The wood is soaked in a caustic alkali after which it is put through a process of immersion in metals and chemicals. The wood then is dried and rubbed with a smooth piece of lead, tin or zinc, until it is brilliantly polished.

Perlan Balm—the one toilet requisite for the daily woman. Delightful to use. Leaves no stickiness. Softly absorbed by the tissues. Delicately fragrant. Imparts a velvety loveliness to the complexion. Tones up the skin. Softens and soothes all unpleasant roughness or chafing caused by wind and other weather conditions. Makes hands soft and white. Creates an elusive, essentially feminine charm. Perlan Balm is indispensable to women of refinement.

The average American eats about 18 pounds of tomatoes of the bottled and canned varieties in the course of a year.

#### Bequest Was Not Wanted

U.S. Universities Refuse Fund For Campaign Against Women Workers

The hope of the late Albert E. Pillsbury, that Harvard, Yale, Princeton and Columbia would carry on his campaign to keep women in the home and out of politics and business seems doomed to disappointment. All but Yale have now refused to accept the bequests in his will to establish lectureships on this burning question, and there is little doubt that Yale will follow their example. Even though the university authorities were left free to adopt what they judged the most effective method "toward creating or developing sound public opinion on this subject," the known views of the donor have apparently precluded any use of raising his money in a study of feminism.

If Mr. Pillsbury had died a quarter of a century earlier these universities might have accepted his bequests with alacrity. But women is so far out of the home and in business and politics that college professors could lecture interminably without in any way affecting the situation. Many of them might be glad to do so, and if the decision had been left to them the lectureships might have been established, but presumably the college authorities had also to consider whether there would be any students to listen. What will now be done with the money we do not know. On the principle of making the most of a bad job it might possibly be diverted to lectureships in the women's colleges on how to vote intelligently.

#### Saskatchewan Poultry Pool

Increase Shown In Volume Of Business Over Previous Year

An increase of nine per cent. in the volume of product handled by the Saskatchewan Poultry Pool, Limited, for the year ended January 31, 1931, as compared with the previous year, was noted in the report of the president, Mrs. Bertha Holmes, submitted to the recent annual meeting of the Pool. A considerable increase in membership was evident, a total 2,418 new contracts having been received during the twelve months.

A British scientist says that as many as 50,000 living species of molluscs are known.

## WESTERNERS ARE HEARD IN DEBATE IN OTTAWA HOUSE

Ottawa, Ont.—From Western members, the House of Commons heard something of conditions in the Prairie Provinces. Western members held the floor for a large part of the sitting. Incidentally Conservatives, to a great extent, dropped out of the debate. The great majority of participants came from the ranks of the Liberals.

At the outset, H. E. Spencer, U.P.A. member for Battle River, expressed the greatest disappointment with reference to agriculture in the Speech from the Throne. He painted a gloomy picture of conditions in the West, bankruptcy, suffering, privation, hardship endured and to be endured; and the infinitesimally small amount of help that has been given," prompted him to speak of the agriculture paragraph in the Throne Speech as a "hollow mockery," he asserted.

"If conditions were any worse than they are, then God help Western Canada," he continued. "From the Speech from the Throne it would appear that it is another case of Nero fiddling while Rome burns."

The debate shifted back to Eastern Canada when Hon. P. J. Veniot, former postmaster-general followed Mr. Spencer. Mr. Veniot devoted a considerable portion of his speech to conditions in New Brunswick, and more particularly to the closing of a cotton factory in the city of Saint John. The tariff had proven anything but beneficial to that province, he asserted.

From another western member, J. L. Brown, Liberal-Progressive, Lacombe, came a couple of suggestions to E. W. Beatty, president of the C.P.R., which Mr. Brown felt might result in improving conditions for the prairie farmer. Mr. Beatty might reduce freight rates suggested Mr. Brown. And the president of the C.P.R. might direct his efforts toward developing markets for farm products.

Investigation of the Canadian wool-filling industry was urged upon the government by Mr. W. Westminister. He expressed the view that the recent report on the wool-filling industry had not gone far enough.

Criticism of the government's tariff policy came from E. J. Young, Liberal member for Weyburn. "We know from the government's own figures that last fall there were 200,000 unemployed," said Mr. Young, "and today there are 300,000. In what way, he asked, had the tariff policy helped Canada, in comparison with what it had cost.

Reference to secession talk in Western Canada featured the speech of John Vallance, Liberal member for South Saskatchewan. Referring to remarks made earlier in the debate by F. W. Turnbull, Conservative member for Regina, Mr. Vallance asserted that secession talk did not originate merely among five or six men gathered at Wilkie. He spoke of a document called the Farmers' Charter of Liberty, which, he said, contained demands similar to those made to the prime minister at Regina. All the farmers had received as an answer to these demands, he said, was promises.

### Amend Criminal Code

First Reading Is Given To Bill In House Of Commons

Ottawa, Ont.—The House of Commons gave first reading to a bill amending the criminal code. The measure which was introduced by Amos Lavergne (Cons., Montmagny), provides:

1. In jury trials, defence counsel would address the jury after crown counsel had been heard in place of before crown counsel.
2. That judges should address the jury on questions of law only and not on fact.
3. That in Quebec province, presiding judge at such trials shall be a judge of the court of sessions of the peace.

Menace To Aluminum Trade  
Tokyo, Japan.—A menace to Canada's aluminum trade with Japan looms up in a scheme that has now reached the formative stage, to supply all of this country's requirements of this metal by a plant to be established in Chosen (Korea).

W. N. U. 1882

### In Interests Of Science

Canadian Doctor Faces Death As Result Of Experiment

London, Ont.—Dr. Wesley Lloyd, graduate of University of Western Ontario, and one of the most promising of the young scientists working under the wing of the Rockefeller Institute, is facing death for the second time as a result of experiments.

Dr. Lloyd contracted yellow fever from monkeys with which he was working in his New York laboratory. His condition is not regarded as critical, but doctors point out that the tropical disease is always dangerous. In 1928, while studying the heart at the University of Western Ontario Medical school, Dr. Lloyd created a sensation when he announced that by using calcium chloride as a stimulant he had caused hearts taken from dead rabbits to resume beating.

Desiring to find out the effect of the drug on the human heart, Dr. Lloyd had his assistant inject a small quantity into his arm. The young doctor became suddenly unconscious and death was close before he revived.

### No Cattle For Export

If Canadians Consume Same Amount Of Meat As Last Year

Winnipeg, Man.—Canada will have no exportable surplus of cattle this year if Canadians consume the same amount of meat as last year, declared Roderick MacLay, rancher of High River, Alberta. Mr. MacLay arrived from Ottawa, where he conferred with Hon. Robert Weir, Minister of Agriculture.

In Ottawa Mr. MacLay, with George Ross, of Lethbridge, Alberta, represented the recently formed council of Western Beef Producers at a conference with the Minister of Agriculture regarding cattle export situation.

Mr. MacLay emphasized that the Canadian cattle industry was on a "decidedly home consumption basis." He deprecates reports of a "glut" on the export market for Canadian cattle. He pointed out that on January 1, 1931, there were 11,546,000 pounds of dressed beef in cold storage in the Dominion, as compared with 23,000,000 on the same date last year. The five-year average, he added, was 23,470,000 pounds.

### No Expansion Of Air Service Expected

Appropriation Compared With Former Years Likely To Hold Their Own

Ottawa, Ont.—No expansion in the air services of Canada is contemplated for the present year and it will likely be found, when the air estimates are tabled, that appropriations for this purpose will do little more than hold their own in comparison with former years, it was stated here. Steady increase in the air vote has been an annual feature for several years past. Rigid economy is now demanded of those who direct Canada's air operations, however, and no expansion will be set aside for expansion of existing services.

At the same time it is not contemplated that any reduction of the existing duties performed by the Royal Canadian Air Force will ensue, or that the present air mail services will be curtailed.

### To Broadcast Arrival Of Governor-General

C.N.R. Chain Will Carry His First Speech As Far As Vancouver

Winnipeg, Man.—The Canadian National Railways radio system has been officially authorized to broadcast, over a coast-to-coast network, the arrival of the Earl of Beaulieu, governor-general designate, and his welcome to Canada by the prime minister. The new governor-general and his family will reach Halifax, Saturday, April 4, at 7 a.m., M.T. The addresses of welcome and Lord Beaulieu's first speech in the Dominion will be carried on a chain that will stretch as far west as Vancouver, according to E. A. Weir, director of radio for the Canadian National system.

Wreck Of Norwegian Vessel  
Copenhagen.—Three passengers, one of them a five-year-old girl, and four members of the crew, perished when the Norwegian steamer "Hersa" was wrecked on the rocks off Hamsfjord, Norway, in a violent storm. Three of the crew members were women stewards. Fifty-five passengers and crew took to the boats and rowed to Hamsfjord.

### Former Manitoba Member Dead

Fred J. Dixon Resigned From Legislature In 1923

Winnipeg, Man.—Fred J. Dixon, 50, former member of the Manitoba legislature and for many years prominent in labor affairs throughout the Dominion, died March 18, at his home here.

Mr. Dixon, who had been in ill-health for many years, resigned from the legislature in 1923. He was first elected in 1914 as a Liberal, but later became a representative of Labor, sitting as a member for Winnipeg.

## U. S. ADHERES TO ITS POLICY OF ALOOFNESS

London, England.—United States policy of aloofness from purely European armament problems has been adhered to in a decision made public at the conclusion of two days of conversations between Rt. Hon. Arthur Henderson, British foreign minister, Rt. Hon. A. V. Alexander, first Lord of Admiralty, U. S. Senator Dwight W. Morrow, and Ambassador Charles G. Dawes.

It was declared that the United States would not participate in any way in the drafting of the new Anglo-French-Italian naval agreement at the foreign office. While the United States will not participate in framing of the pact, official U.S. opinion, echoed here, was that the tripartite agreement is an important and successful move toward settlement of European armament problems.

The only concern of the United States, it was said, is in regard to the world naval situation and the relation of the new accord to such existing naval agreements as the Washington Treaty and the Pact of London.

It was learned on high authority that U.S. experts on disarmament view the tripartite agreement as supplementing the London treaty of 1930 without conflicting with that pact or calling for any changes in it. It is now believed the Japanese government will also decide not to be represented.

Washington, D.C.—Secretary of State Stimson received assurances from Ambassador Charles G. Dawes, in London, England, that satisfactory progress was being made in Europe toward completing the Franco-Italian naval compact. The secretary said it appeared that U.S. participation on a committee to draft the Franco-Italian settlement would be necessary.

It was considered possible that the final draft might necessitate only the signatures of France and Italy. The question of British signatures is still one for determination.

### MAY RECEIVE APPOINTMENT

Hon. Capt. A. Lascelles, who, according to reports in one quarter, may be secretary of Lord Beaulieu, Canada's new Governor-General. Photo by Pearl Freeman, Lond.

### Will Use Canadian Coal When Possible

Chief Of Both Railways Give Promise To Nova Scotia

Ottawa, Ont.—The two railway presidents, E. W. Beatty, of the C.P.R., and Sir Henry Thornton, of the Canadian National, expressed the desire of their systems to use Canadian coal wherever possible during a conference here with Nova Scotia representatives and Hon. Wesley Gordon, Minister of Mines and Immigration.

The minister announced that the facts as submitted by the fuel representatives would be closely studied by the fuel board and himself and as far as feasible their request for the use of Nova Scotia coal farther west than the railways are now consuming it would be followed.

### Would Entertain Royalty

King Of Siam To Pass Through Western Canada

North Portal.—It is expected that the border towns of North Portal and Portal will be honored with a call from the King of Siam on April 19. His Majesty and party will be passing through en route from Vancouver to Washington, D.C., on that date. A Minot dentist, N. R. Livingstone, has sent the distinguished visitor an invitation to be his guest at a Minnesota Lake resort. Mr. Livingstone having met the then heir to the throne at that resort in 1922. The question as to where Uncle Sam will give the customary royal salute is not decided.

### Find Ruined Temple

Athens.—Ruins which he believes to be those of the first Temple of Eros, God of Love, have been found by Prof. Brognard, of the American Archaeological School, on the northern slope of a hill mentioned in the records of the famous Greek geographer, Apollonius.

## Cities Linked by Air

Inauguration of air service between Saint John and Halifax, February 28, when a Ford Trimotor plane, of the Canadian Airways, left the former city for the Nova Scotia capital, marked the further extension of air travel in the Maritimes. In the cut Walter Bale, Saint John superintendent, Canadian Airways, is handing the pilot of the plane, Captain W. H. Irvine, a package of silk goods consigned by Canadian Pacific Express to a Halifax retail store. The trip was in an hour and a half, a distance as the crow or an airplane flies, of about 125 miles.

### To Employ Local Men

Manitoba Workers To Be Used On Construction Work At Churchill

Winnipeg, Man.—Labor's request that only Manitoba workers be employed in construction operations at Fort Churchill, Manitoba's northern seaport, will be acceded to as far as possible by the Dominion Government.

The Winnipeg Labor Council recently requested the government to employ only Manitoba labor at Fort Churchill and apply the Manitoba fair wage schedule.

Hon. R. J. Manion, Minister of Railways, informed the council that Manitoba "certainly will get a large proportion of the work." He added, however, that it was not possible "to give it all to one province as some men have to be hired from elsewhere because of special qualifications."

## SENATE HEARS ABOUT RELIEF WORK PROGRAM

Ottawa, Ont.—"I believe Canada should profit by the errors made by other countries," Hon. Gideon D. Robertson, Minister of Labor, told the senate in a reference to Great Britain's unemployed insurance scheme.

Along with many other people, both in Canada and Great Britain, Senator Robertson had been pleased when the scheme first was put in operation, he said. It soon was evident, however, that it was becoming a burden on the country as a whole and had not removed the basic causes of widespread unemployment. Canada, he suggested, might profit by the experience.

As head of the department that administered the Dominion's share in the joint unemployment relief scheme with the provinces and the municipalities, Senator Robertson said he had received complete cooperation from all sides.

The scheme had resulted in \$69,000,000 being subscribed by the Dominion, the provinces, municipalities and the two large railway companies, to provide work and relief.

"The situation has been substantially improved," the minister of labor declared. Not only had the government provided \$20,000,000 toward creating employment opportunities, but it had raised the tariff to stimulate Canadian industry and had curtailed immigration to the country.

"I am convinced," Senator Robertson proceeded, "that if parliament had not met in September, and had not taken those steps to relieve distress, there would have arisen in Canada a condition very difficult to control. It is the desire of this government to give attention to a permanent solution. No one expected unemployment to be ended in a day or a week, but this government is doing all within its power to relieve conditions."

Hon. Robert Forke suggested the incorporation of a scheme whereby farmers' debts in Western Canada would be amortized over a 10-year period. In 1929 years' residence in the west, he had never seen conditions so acute and he believed something would have to be done to relieve the financial burdens of the farmers if they were to continue producing. For the first time, Mr. Forke had seen indications in the west of a lack of confidence in the future.

Senator Forke believed too much money had been loaned by the banks at too high a rate of interest and that mortgage companies were threatened with a loss of part of their equity in lands. A 10-year amortization scheme might be the means of solving this angle of the west's predicament.

Wheat growing was the only possible crop in some portions of the west, the former minister of immigration proceeded. He asked if there were hard in 1930, with wheat at an average price of 92 cents a bushel, what would they be in 1931 with 60-cent wheat? Senator Forke believed in the small-unit farm with diversified production, but he did not think this would materialize to any extent for some years.

Recession sentiment was not increasing in popularity in the west, Senator Forke declared. Expressions made in the past few months would not be taken seriously by other parts of the country, he said, but at the same time they could not be dismissed without consideration because they emanated from distress and discontent.

## REPORT DEALS WITH THE 1931 CROP PROSPECTS

Ottawa, Ont.—Prospects for this year's crop are dealt with in a report issued by the Dominion Bureau of Statistics.

"The weather," it states, "of the past four weeks marks the first period of the winter which has been somewhat encouraging to the prospects for the 1931 crops. Ontario winter wheat crop has been greatly benefited by heavy snow. In the prairie provinces also, there have been scattered snowstorms of some benefit."

"In various parts of the prairie, during the winter," the report states, "there have been some reports of soil-drifting from areas bare of snow and with dry top soils. At the present time, with the exception of localized areas, normal conditions regarding soil moisture prevail throughout the west, since the heavy rain and snow falling between harvest and freeze-up, together with the snowfall of the first two weeks of March offset the large deficiencies in winter precipitation. It must be remembered, however, that sub-soil reserves are low which makes important wheat-producing regions which have suffered from drought in the past two years."

### War Responsible For Depression

Sir George Foster Deals With Present Economic Conditions

Ottawa, Ont.—Two of Canada's oldest parliamentarians in point of service, Sir George Foster, and Rt. Hon. George P. Graham, dealt with matters of national moment when speaking in the senate. The former, who will be 84 in September, delved deeply into the causes of the present depression, setting forth the opinion that world-wide conditions were attributable largely to the last war.

As a former chairman of the tariff advisory board, Senator Graham said he was pleased to know the government intended establishing another board. Business interests demanded such a move, he said, and their demands might be met. It might be wise to have a tariff board named by statute, with its powers defined and limited by statute, but he warned the government against placing great care in naming those powers. The people of Canada wanted the government and not a tariff board to fix duties.

### Russia Taking Skilled Mechanics From Canada

Toronto Workers Answer Soviet Plea For Help

Toronto, Ont.—"Soviet Russia's world-wide plea for skilled mechanics and expert craftsmen has been answered by 100 Toronto bricklayers, carpenters, technicians and contractors, who have been guaranteed employment in the Soviet Union, and will leave Canada early in May. Arrangements for sailing have been made," the Toronto Star says.

The party will be composed of Russians, Canadians, Frenchmen, Finlanders and other nationalities. Wives and children will travel with the heads of households and many will carry with them their personal belongings, the paper says.

It is understood a year's contract of work has been guaranteed. The men who are going to Russia are not among the army of unemployed. The Star learned. The majority of them are working.

### Fishing Boat Case

Ottawa, Ont.—Seizure of the coast of British Columbia of foreign fishing vessels by the Canadian fisheries patrol, is the subject of a case on which argument was concluded in appeal before the Supreme Court of Canada. Judgment was reserved. The vessels, "Queen City," "Tillamook" and "Sunrise," registered in the state of Washington, were seized on June 18, 1930, while the vessel, "May," registered in Alaska, was seized a few days earlier.

### Ready For Delivery

Ottawa, Ont.—Delivery of the first of Canada's new destroyers, H.M.C.S. "Saguenay," will be made to this country on or about April 1. A number of tests have still to be made but it is expected that a Canadian crew will be put on board the warship around that date and will formally pass into the hands of the naval service of this court.

# Thumb Sketches

By Cy

**ADVICE** is a great thing. It is about the only thing in this great, wide world that may be obtained absolutely free—if you don't go to a lawyer for it. In fact, it is often thrust upon us "without money and without price." It comes from all points of the compass and sometimes with such fervor, especially if we have been so unfortunate as to run into a bit of a business cal-de-sac, as to produce the feeling that the giver would willingly pay substantially for the foolishness to take it.

"Dear, oh dear! Don't cut the baby's finger nails, or if you do," says a well meaning old lady friend, "he'll grow up to be a thief." "Don't weigh 'em, for goodness sake," says an emaciated old spinster, "or if you do, he'll die sure." And then Mrs. Bunk comes to see the wife and to inquire how the new temptress is progressing. "Ah," she says, "let 'em eat whatever he wants. If you don't and if he don't get a taste for everything, he won't be able to buy these things when he grows up." "The first thing I thought when my first baby came," said old Mrs. Sill, "was to tell the nurse to climb up on a chair and hold 'em up, high over her head," and then she continued most confidentially: "Never let your baby go down first. If you do he'll never be able to rise in the world. Look at my first boy, now. He's second foreman of the garbage gang."

There seems to be but few exceptions to this free advice formula. Take the farmer, for instance, he is passing through a bit of tough luck just now and a lot of people think that the reason may be found in the lack of direction. They rush to the rescue with all kinds of advice as to how this highly technical business should be conducted, and they offer it as freely as the air you breathe. "Cut down the acreage," says one, "increase the size of the farm," says another, "and put your operations on a commercial basis." And again, "Raise more hogs and cattle." "Get some turkeys and geese." "Develop mixed farming." "Cut the cost of production," and so on and on ad infinitum.

Maybe that all of this and a lot more is good stuff. We don't know. Probably the best advice after all is that of the practical expert who has made a success in any particular line of business—the doctor in his, the lawyer in his, the engineer in his, the manufacturer in his, the merchant in his, the farmer in his, and so on and on again. This, however, seems to be the idea behind the big Exhibition and Conference to take place at Regina, Canada, in 1932. At any rate it promises to be the greatest gathering of experienced agriculturists and technical experts ever held anywhere at any time.

## Local and General Items

Mark Sartoris has been confined to his home through illness for several days.

One hundred and twelve applications for the position of city engineer were received by the city of Fernie.

The many friends of Mr. "Sandy" Burnett will be pleased to learn that his condition shows slight signs of improvement.

The Albertan remarks: The Superiors have probably the best lineup that has represented the two western provinces since Coleman fell to Port Arthur a few years ago.

The many Pass friends of Thomas Hughes were sorry to learn that he had met with a rather serious accident in a Coleman mine last week end. From latest reports his condition is improving.

A large number from this district attended the Knights of Columbus convention at Pincher Creek on Tuesday, when W. A. Wells, representative of the Supreme Council, was the chief speaker.

In the final play-offs of the Pacific coast pros, Vancouver won the first game against Seattle 1-0, and Seattle last night turned the table to the tune of 6 to 1. There are likely three games to be played yet.

Two of the world's greatest voices and two of the screen's most vivid personalities are seen in "New Moon," Metro-Goldwyn-Mayer's transcription of the stage hit, co-starring Lawrence Tibbett and Grace Moore, and now playing at Cole's theatre, Bellevue.

Joseph Hillary, of Bellevue, formerly of Drumheller, lies in the Holy Cross hospital at Calgary, having gone through an operation for knee injury on Tuesday, and is reported to be making satisfactory progress—Drumheller Mail.

A Scotchman, just back from the Florida golf courses, was struggling up the main street in Blairmore, dragging an alligator. "What are you doing with that alligator?" he was asked. "The son of a gun has my ball," he replied.

A smart lad applied for a job as errand boy at a butcher shop. "What do you pay?" he asked. "\$3.00 a week," said the butcher, but what can you do. "Anything," said the boy. "Can you dress a chicken?" asked the butcher. "Not on \$3.00 a week," replied the boy.

Word of the death of Christina "Chic" Carr, well-known Canadian rodeo-rider and horsewoman, who was instantly killed during a performance at Johannesburg, South Africa, on Saturday, has been received. Miss Carr was born in Australia twenty-one years ago and lived for years near Okotoks, Alberta.

The British Columbia Miners' Association, employees of the Crows' Nest Pass Coal Company at Coal Creek and Fernie, voted on Friday last in favor of the new two-year agreement, which they have been negotiating with the company. There is said to be little if any change in this agreement from the one they have been working under. Out of 731 votes cast, 623 were for the new agreement.

The twenty-first annual convention of the Alberta Educational Association will be held at McDougall United church, Edmonton, during the Easter school vacation. The main speaker this year will be Dr. Ludwig Mueller, a distinguished scholar and writer and an official representative of the German republic and minister of education. His subjects will be: "The New Education Movement in Germany," and "International Relationships." The sessions will occupy three days, April 7, 8 and 9. Dr. M. E. Lazerte, former school inspector in the Macleod inspectorate, will be one of the speakers.

PIANO and PHONOGRAPH for sale cheap. Apply, The Enterprise.

A dance will be held in the Lundbreck hall on the night of Friday, April 10th. See bills.

The idea of miniature golf has got nothing on Doc Lillie's tame donkey that actually coughs up newly-made cigarettes.

FURNISHED HOUSE — Four rooms and pantry, indoor toilet, hot water. Rent \$17.00 per month. Phone 131, Blairmore.

The Saunders Creek correspondent to the Red Deer Advocate states: "Mrs. Chabonnier set sail March 7 from Nice, France, and is expected here in the near future."

FOR SALE—1929 model Whippet Six, rumble seat coupe, splendid condition, run about 6000 miles. Special price for cash deal—F. M. THOMPSON CO.

The Trail Smokeeaters, British Columbia hockey champions, lost to the Edmonton Superiors, Alberta champions, 6-5 in a two-game series played at Trail. The first game was a tie, 3-3; the second 3-2.

In the check being made of the recent beer petition, 21.75 per cent of the names had been struck off up to March the 17th. That should be sufficient to warrant the throwing out of the petition altogether.

In order to prevent dumping into Canada of bituminous coal, value for duty purposes has been fixed by Hon. E. B. Ryckman, minister of national revenue, at one dollar per ton on slack coal and \$1.25 on run of mine.

The Allart Pictures Corporation present the exclusive official motion pictures of the heavyweight boxing contest between Primo Carnera and Jim Maloney at Cole's Theatre, Bellevue, on Monday and Tuesday nights next.

A most enjoyable evening was spent in the lodge hall on Friday last, when members of Greenhill Temple No. 10, Pythian Sisters, and of Livingstone Lodge No. 22, K. of P. enjoyed whist, etc., followed by luncheon and dancing. Around seventy-five were present.

A placid wife, who knows nothing of golf, but who wishes to help her husband master the game, stepped in to Kerr's men's wear store last week and asked to see some "large hand-caps." To the astonished clerk, she explained: "My husband says that if he can get a good sized one this season he'll have a chance in the tournament."

Charlie Miro, of the Sartoris & Biellie employ here, was called to New York state recently, owing to the serious illness of one of his parents. While in the east, Charlie developed pneumonia and is still quite seriously ill, but reported recovering and is expected back shortly. His condition was so serious last week end that a message was sent to Blairmore for his sister to come east immediately.

Metro-Goldwyn-Mayer's long awaited adaptation of the New York stage success, "New Moon," with Lawrence Tibbett and Grace Moore in the leading roles, will be the attraction at Cole's theatre starting today, for three days. The original play, one of the biggest Broadway hits in years, was written by Oscar Hammerstein II, Frank Mandel and Lawrence Schwab, with music by Sigmund Romberg, and made dramatic history with Evelyn Herbert, Robert Halliday and Gus Shy in the featured parts. Shy plays his same role in the film version and the supporting cast also includes Adolphe Menjou, who returns to the screen after a prolonged absence; Roland Young, last seen in "Madam Satan"; Emily Fitzroy, remembered for her work in "The Bridge of San Luis Rey," and nearly a thousand extras.
